

WHALE DIVE CENTRE

Client Handover Guide

Panduan lengkap admin non-teknis untuk kelola konten website

Generated: 11 July 2026 · Internal handover document

Whale Dive Centre — Panduan Handover Client

Dokumen ini untuk **admin non-teknis** yang mengelola konten website Whale Dive Centre lewat WordPress Admin, **tanpa mengubah kode**.

Prinsip utama:

Layout/desain tetap. Admin cukup ubah **konten, foto, harga, dan status request**.

1. Akses penting

Keperluan	URL	Keterangan
Website publik	<code>https://whaledivecentre.com</code>	Halaman pengunjung
Login admin (kelola konten)	<code>https://whaledivecentre.com/wp-admin/</code>	Masuk lewat form WordPress admin
Login member (siswa/customer)	<code>https://whaledivecentre.com/login/</code>	Bukan untuk kelola konten site
Dashboard member	<code>https://whaledivecentre.com/dashboard/</code>	Area member setelah login

Catatan login (penting)

- Admin** pakai `/wp-admin/` → form login WordPress.
- Member** pakai `/login/`.
- URL lama `/member-login/` otomatis dialihkan ke `/login/`.
- Kalau password member salah, user **tetap di halaman** `/login/` (bukan ke halaman admin).

Simpan username/password admin di password manager. Jangan share ke member.

2. Peta menu admin (yang perlu dipakai)

Setelah login admin, fokus ke menu ini:

A. WDC Site — pusat konten website

Ini menu utama untuk copy marketing & data site.

Submenu	Untuk apa
Contact & Footer	Email, telepon, alamat, jam, sosial media, teks footer, CTA footer
Home Content	Hero home, proof points, judul section kursus/gear, membership, reviews title
Notifications	Email crew saat ada request course/gear; auto-reply ke member
About Page	Teks halaman Tentang Kami
Contact Page	Teks/form copy halaman kontak
Partners / Trust	Partner/brand trust (format khusus, lihat bawah)
Crew Profiles	Profil crew (nama, foto, bio)
Testimonials	Testimoni member/tamu
Add Crew / Add Testimonial	Tambah data baru

B. Katalog produk/kursus

Menu	Untuk apa
Dive Courses	Semua kursus (judul, deskripsi, harga, foto, highlight, CTA)
Dive Equipment	Semua gear (harga, stok, size, foto, CTA)

C. Blog & cerita member

Menu	Untuk apa
Posts / Blog	Artikel blog resmi crew
Cerita Kamu	Cerita yang dikirim member — harus di-approve dulu sebelum tampil di Blog

D. Member & request

Menu	Untuk apa
Users	Data akun member
WDC Members (jika ada)	Ringkasan request/order member

Yang tidak perlu disentuh admin harian

- Appearance / Theme File Editor / Plugin settings teknis
- Kode, CSS, rewrite, database
- Menu legacy yang disembunyikan (mis. tool internal dev)

3. Tugas harian / mingguan

3.1 Ganti teks Home / About / Contact / Footer

1. Buka **WDC Site**
2. Pilih submenu yang sesuai (Home Content / About Page / Contact Page / Contact & Footer)
3. Edit field
4. Klik **Save / Update**
5. Cek hasil di website publik (hard refresh browser)

3.2 Update harga / detail kursus

1. Buka **Dive Courses**
2. Klik kursus yang mau diubah
3. Isi field penting:
 - Judul & ringkasan
 - **Featured image** (foto utama)
 - Harga mulai
 - Durasi, max students, prasyarat
 - Includes / highlight
 - CTA label (contoh: **Daftar Open Water**)
 - Show in catalog (tampil/sembunyi)
4. **Update**
5. Cek:
 - **/courses/**
 - halaman detail kursus

3.3 Update gear / stok

1. Buka **Dive Equipment**
2. Edit item
3. Field penting:
 - Featured image
 - Harga mulai
 - Stok
 - Ukuran tersedia
 - Service points / CTA
4. **Update**
5. Cek `/equipment/` dan detail item

3.4 Ganti foto (cara benar)

Foto yang tampil di catalog/detail = **Featured Image** di post course/equipment.

1. Buka course/equipment
2. Panel kanan **Featured image**
3. Set / ganti / remove image
4. Update

Jangan cari menu “Catalog Images” untuk ganti foto harian. Itu tool internal, sudah disembunyikan.

3.5 Tambah testimoni

1. **WDC Site** → **Testimonials** → **Add Testimonial**
2. Isi nama, isi testimoni, foto (opsional)
3. Publish
4. Cek section testimoni di home

3.6 Update crew

1. **WDC Site** → **Crew Profiles**
2. Edit / add crew
3. Isi nama, role, bio, foto
4. Publish

3.7 Partners / Trust

Di **WDC Site** → **Partners / Trust**:

- Format tiap baris: Nama Brand|nama-file.webp
- Pisah baris partner baru dengan ---
- File logo ditaruh di folder assets partners (koordinasi dev jika perlu upload file baru)

Contoh:

```
NAUI|naui.webp
TDI|tdi.webp
---
Cressi|cressi.webp
```

4. Alur bisnis member (request course/gear)

Cara kerja (penting)

- Harga **tampil publik**
- Tombol **Daftar / Beli** butuh login member
- Member mengajukan request dari dashboard
- Crew follow-up manual (bukan checkout otomatis Midtrans penuh)
- **Tidak ada WhatsApp CTA publik** di halaman course/equipment

Alur member

1. Member buka /login/
2. Masuk dashboard
3. Ajukan kursus (/my-courses/) atau gear (/my-gear/)
4. Admin/crew terima notifikasi email (jika Notifications aktif)
5. Crew hubungi / proses manual

Setting notifikasi

WDC Site → **Notifications**

- Email crew penerima request
- On/off notif crew
- On/off auto-reply ke member

Kalau email crew kosong, sistem fallback ke email admin/contact.

5. Cerita Kamu (moderasi wajib)

Member bisa kirim cerita dari area member (**Cerita Kamu**).

Aturan

- Submit member **tidak langsung publish**
- Status awal: **Pending review**
- Baru tampil di Blog setelah admin **Approve**

Cara approve

Opsi A — dari list

1. Admin → menu **Cerita Kamu**
2. Cari item Pending
3. Klik **Approve & publish**

Opsi B — dari edit

1. Buka cerita
2. Centang **Approve & publish ke Blog**
3. Update

Hasil approve

- Cerita live di list Cerita Kamu (approved)
- Otomatis dibuatkan/disinkron ke **Blog post** (kategori Community)
- Member melihat status **Live di Blog** di “Kiriman saya”

Unapprove

- Bisa di-unapprove
 - Hilang dari publik / blog jadi draft
-

6. Halaman publik yang dikelola

Halaman	Admin edit di
Home	WDC Site → Home Content + CPT courses/equipment + testimonials/crew
Courses catalog	Dive Courses
Course detail	Dive Courses (single post)
Equipment catalog	Dive Equipment
Equipment detail	Dive Equipment (single post)
About	WDC Site → About Page + Crew Profiles
Contact	WDC Site → Contact Page + Contact & Footer
Blog	Posts + Cerita Kamu (approved)
Login member	/login/ (konten template; akun lewat Users)
Dashboard member	data request/order member

URL penting katalog

- Courses: /courses/
- Course detail: /courses/{slug}/
- Equipment: /equipment/
- Equipment detail: /equipment/{slug}/
- Blog: /blog/

URL lama /course/... dan /gear/... dialihkan otomatis ke format baru.

7. Checklist “konten aman diubah”

Boleh diubah admin:

- Teks hero, about, contact, footer
- Harga, deskripsi, CTA course/gear
- Foto featured course/gear
- Testimoni, crew, partners
- Artikel blog
- Approval cerita member
- Email notifikasi request

Jangan diubah tanpa dev:

- Plugin / theme code
- Permalink structure
- Role capability
- Database / server / DNS / email server
- Redirect rules
- Menu technical hidden tools

8. SOP cepat 10 menit (mingguan)

1. Cek request baru (email + WDC Members / user meta request)
2. Follow-up member pending
3. Review **Cerita Kamu** pending → approve/reject
4. Update stok gear jika berubah
5. Cek 3 halaman kunci di HP:
 - Home
 - 1 course detail
 - 1 equipment detail
6. Pastikan tombol Masuk mengarah ke `/login/`
7. Pastikan admin tetap bisa buka `/wp-admin/`

9. Troubleshooting admin

Masalah	Cek dulu
Edit sudah save tapi web belum berubah	Hard refresh (<code>Ctrl+Shift+R</code>). Cache browser/server bisa delay.
Foto course/gear tidak muncul	Featured image di post tersebut sudah di-set?
Member tidak bisa daftar/beli	Sudah login? CTA memang login-first.
Cerita member tidak muncul di blog	Sudah di-approve? Status harus Approved + publish.
<code>/wp-admin</code> malah ke login member	Seharusnya tidak. Pakai <code>/wp-admin/</code> / <code>wp-login.php</code> . Hubungi dev jika masih salah.
Email request tidak masuk	WDC Site → Notifications: email crew & folder spam

10. Batasan fitur saat handover

Sudah jalan untuk operasional harian:

- Konten site lewat **WDC Site**
- Katalog course/equipment + harga publik
- Login member `/login`
- Request course/gear login-gated
- Moderasi Cerita Kamu → Blog
- Admin `/wp-admin` terpisah dari member login

Belum jadi fokus admin harian / masih lanjutan:

- Multi-image gallery per produk (selain featured image)
- FAQ admin-editable penuh
- Payment gateway full otomatis (Midtrans end-to-end)
- Status label request yang lebih advance
- Dual-language field mendalam untuk semua copy

11. Kontak teknis / eskalasi

Hubungi tim dev jika:

- Butuh ganti layout/desain
- Error 500 / halaman putih
- Login admin/member rusak
- Redirect salah
- Email server tidak kirim sama sekali
- Perlu tambah field baru di admin

Sertakan:

1. URL halaman
2. Screenshot
3. User role (admin/member)
4. Waktu kejadian
5. Langkah reproduksi singkat

12. Ringkas untuk owner

Kalau cuma ingat 5 hal:

1. Konten site → menu **WDC Site**
2. Kursus/gear → **Dive Courses / Dive Equipment** + Featured image
3. Member login → `/login/`

4. Admin login → `/wp-admin/`

5. Cerita member harus **di-approve** dulu baru ke Blog

Dokumen handover ini disusun untuk operasional non-teknis. Layout tetap dikunci; admin fokus isi konten dan follow-up member.

Dokumen operasional non-teknis. Layout tetap; admin fokus isi konten & follow-up member.
